Operating instructions

- Under mixing, disperse Avicel® into water heated to 75°C, mix for about 20 minutes.
- Add A2 to A1 under rapid mixing for about 10 minutes.
- Prepare premix A3 and add to A1+A2 under mixing.
- Prepare B and heat to 75°C.
- Under rapid mixing (Rotor/Stator 3000 rpm), add B into A1+A2+A3.
- Maintain rapid mixing for about 10 minutes.
- Cool under mixing.
- Add C under low mixing at about 30°C.
- Cool under low mixing and add C.

Revitalizing Primer in Motion (R.P.M.)

2007-1.14

+ Move it

+ Eye contour

+ Rejuvenated look

Description

Inspired from spinning lessons, this natural eye contour is to be applied around the eyes in small circles to reduce fine lines and give a fresh rejuvenated look. Thanks to Emulium® Mellifera MB and Acticire® MB, the texture is light and comfortable, and moisturizes the eye contour gently.

This primer formulation is also perfect for a long-lasting make-up with no smudges during your workout!

Specifications

+ Aspect:
Off white emulsion

+ pH = 6.5 ± 0.5

+ Viscosity Brookfield RV (spindle A, speed 5):
approx. 4 000 mPa.s after 24h

Ingredients

- **Emulium® Mellifera MB** at 4 % creates a stable and pleasant cream with a light residual film, perfect for the eye contour.
- Avicel® PC 591, Genugel® Carrageenan CG-130 and Satiaxane™ CX91 are gelling agents which help stability.
- Corn PO4 PH B 9042 is a powder to improve the soft afterfeel.
- **MOD** and Cetiol® C5 are emollients to give a dry and soft touch and to improve moisturization of the skin.
- **Acticire® MB** is a natural texture agent which brings durable moisturization and comfort thanks to polyglycerized waxes.
- **Gatuline® Expression AF** is a natural anti-wrinkle active, extracted from Acmella Oleracea, which fights the appearance of fine lines and visibly smoothes skin surface.
